SUMMARY

Enthusiastic and detail-oriented professional with a strong interest in Machine Learning and SAP . Passionate about integrating technology and data analysis to drive intelligent business solutions. Familiar with data modeling, predictive analytics, and SAP BW/HANA, with a keen willingness to learn and adapt. Strong analytical and problem-solving skills with a data-driven mindset.

EDUCATION

Degree	Institute	Board / University	CGPA/Percentage	Year
B.Tech CSE(ALML)	Institute of Aeronautical Engineering , Hyderabad	JNTU	8.23	2021-Present
Intermediate	Sri chaitanya junior college	BIE AP	93.7%	2019-2021
10th	The Aditya Birla public school	CBSE	84.57%	2019

PROJECTS

- Digit Recognizer using a CNN** jun 2024 - jul 2024
deep learning project , kaggle.com
 - Built a deep learning model with TensorFlow achieving 98% accuracy on test data.
 - Optimized the model using techniques like dropout and batch normalization, reducing overfitting by 20%.
 - Evaluated model performance using metrics such as precision (98.4%), recall (98.7%), and F1 score (98.5%).
- Facial Expression Recognition with PyTorch** Aug 2024
Guided ML project , coursera.org
 - Trained a CNN-based model using PyTorch to classify facial expressions into seven categories, achieving an overall accuracy of 92%.
 - Implemented data augmentation techniques, increasing model robustness by 15%.
 - Used metrics like confusion matrix, ROC-AUC score (0.91), and precision-recall curve for thorough evaluation.
- Classification with an Academic Success Dataset** jun 2024 - jul 2024
ML project , kaggle.com
 - Conducted exploratory data analysis (EDA) and data preprocessing, including feature scaling and handling missing values.
 - Trained classification models (Logistic Regression, Random Forest, and Gradient Boosting) with accuracy up to 87% and F1 score of 85% on validation data.
 - Compared models using AUC-ROC curves and hyperparameter optimization to identify the best-performing model.
- Machine Learning in mining** Mar 2022 - 2023
Exploration of Minerals
 - Built a predictive model using Random Forest and Gradient Boosting algorithms to estimate mineral deposits, achieving an R² score of 0.89.
 - Provided cost estimations for mineral extraction, reducing planning errors by 25%.

TECHNICAL SKILLS

- Programming Languages:** Python, R, Java, SQL, HTML, JavaScript
- Frameworks and libraries:** TensorFlow, PyTorch, Scikit-learn, Keras, Pandas, NumPy, XGBoost, Matplotlib, Seaborn, OpenCV, Statsmodels, LightGBM, Plotly
- Tools:** Jupyter Notebook, Visual Studio Code, MongoDB, Tableau, Power BI, Git
- Other Skills:** Machine Learning, Deep Learning, Data Analysis, Data Visualization, Predictive Modeling, Natural Language Processing (NLP), Statistical Analysis, Feature Engineering, Model Deployment

CERTIFICATIONS

- NPTEL: Mastered core Java concepts and advanced programming techniques.Programming In Java (NPTEL)
- Web Development 101 course (Pupilfirst School)
- Amazon Web Services (National Small Industries Corporation)
- Exploratory Data Analysis for Machine Learning (coursera)
- Introduction to Statistical Analysis: Hypothesis Testing (coursera)
- Machine Learning in Production (coursera)
- Neural Networks and Deep Learning (coursera)
- Unsupervised Learning, Recommenders, Reinforcement Learning (coursera)

ACHIEVEMENTS

- GATE DA Paper**,Secured All India Rank 9193 in GATE 2024 (DA Paper). 2024
- Kaggle competition**,Achieved Rank 2681 in Kaggle Competition: Academic Success Dataset. 2024
